

Ashley Yan

FULLSTACK SOFTWARE ENGINEER

asyan77@gmail.com \ \ 561-212-7559 \ \ [Portfolio](#) \ \ [Github](#) \ \ [LinkedIn](#) \ \ San Francisco, CA

Technical Skills: JavaScript | React | Redux | Node.js | Ruby | Ruby on Rails | PostgreSQL | Express.js | MongoDB | Mongoose | AWS | CSS | HTML | Github | Object-Oriented Programming (OOP) | noSQL

EDUCATION

App Academy \ \ Fullstack Web Development

Completed 01/2024

- Immersive software development course with focus on full stack web development
- 1000+ hours of coding in an intense dev environment plus 6 hours of daily pairboarding
- Coordinated teams while learning new technologies quickly and applied them to real projects in a short amount of time and under strict deadlines.

PROJECT EXPERIENCE

Burnr | Javascript (JS) | React | Redux | REST API | AWS | Ruby | Ruby on Rails | PostgreSQL | CSS3

[Github](#) \ \ [Live](#)

- Implemented AWS S3 to save new and store existing photos
- Enabled access to edit options for photo and comments using ternary operators and Redux global state management
- Built two full CRUD features using Rails for backend server which provides data on request, and PostgreSQL to organize and query the database for photos and comments

Roominate | MongoDB | Express | Javascript | React | Redux | Mongoose | AWS S3 | Dall-E 3 | noSQL [Github](#) \ \ [Live](#)

- Built photo carousel displaying before and after photos of projects
- Improved functionality of uploading photos by implementing a drag and drop file upload area using Vanilla DOM eventListeners
- Filtered project photos by user id through the url using React hooks

AdventureWise | Javascript | Node | svgMAP | TravelTablesAPI | REST API | CSS3 | HTML5

[Github](#) \ \ [Live](#)

- Incorporated two APIs to display a country's flag and country's cost data
- Built states for pinned or unpinned countries
- Customized a function to rotate data cards in chronological order and without duplicates by using a series of conditionals

WORK EXPERIENCE

Ashyan's Lu Ruo Fan | *Founder / Owner* | San Francisco, CA

Dec 2020 – Present

- Founded and operated a specialized Taiwanese food business serving the greater San Francisco and Bay Area region
- Delivered up to 120+ orders per round, on-time or early, which led to a customer satisfaction rate of 4.8 out of 5 via [Yelp](#)
- Cultivated an organic emailing list of 400+ followers without any marketing, growing by 5-8% each month

Udacity | *Workplace Manager, Online Community Manager* | San Francisco, CA

Aug 2017 – Dec 2020

- Planned and executed office-wide offsite events, team off-sites, and happy-hours, with 80% attendance, resulting in improved morale and communication.
- Advocated for 40,000+ Udacity students, serving as their main point of contact as the Online Community Manager.
- Resolved 200+ student inquiries daily in a timely manner, resulting in higher retention rates of students.

China Live | *Server* | San Francisco, CA

Aug 2017 – Mar 2020

Cockscomb | *Server* | San Francisco, CA

May 2015 – June 2017
