## SOFTWARE ENGINEER

Ashley.Yan.devs@gmail.com // 561-212-7559 // [Portfolio](#) // [Github](#) // [LinkedIn](#) // San Francisco, CA

---

**TECHNICAL SKILLS** : JavaScript | React | Redux | Node.js | Ruby | Rails | PostgreSQL | Express.js | MongoDB | AWS | CSS | HTML | Object-Oriented Programming (OOP) | noSQL | SQL | RESTful APIs | Github

**RELEVANT SKILLS** : Problem Solving | Troubleshooting | Logistics Planning | Project Management | Communication | Teamwork | Time Management | Adaptability | Emotional Intelligence & Empathy

## PROJECT EXPERIENCE

---

**Burnr** | Javascript (JS) | React Redux | REST API | AWS | Ruby | Ruby on Rails | PostgreSQL | CSS3 [Github](#) // [Live](#)

- Implemented AWS S3 to save new and store existing photos
- Enabled access to edit options for photo and comments using ternary operators and Redux global state management
- Built two full CRUD features using Rails for backend server which provides data on request, and PostgreSQL to organize and query the database for photos and comments

**Roominate** | MongoDB | Express | Javascript | React Redux | AWS S3 | OpenAI | Dall-E 3 | noSQL [Github](#) // [Live](#)

- Built photo carousel displaying before and after photos of projects
- Improved functionality of uploading photos by implementing a drag and drop file upload area using Vanilla DOM eventListeners
- Filtered project photos by user id through the url using React hooks

**AdventureWise** | Javascript | Vanilla JS | svgMAP | TravelTablesAPI | REST API | CSS3 | HTML5 [Github](#) // [Live](#)

- Incorporated two APIs to display a country's flag and country's cost data
- Built states for pinned or unpinned countries
- Customized a function to rotate data cards in chronological order and without duplicates by using a series of conditionals

## WORK EXPERIENCE

---

**Ashyan's Lu Ruo Fan** | Founder / Owner | San Francisco, CA **Dec 2020 – Jan2024**

- Founded and operated a specialized Taiwanese food business serving the greater San Francisco and Bay Area region
- Delivered up to 120+ orders per round, on-time or early, which led to a customer satisfaction rate of 4.8 out of 5 via [Yelp](#)
- Cultivated an organic emailing list of 400+ followers without any marketing, growing by 5-8% each month

**Udacity** | Workplace Manager, Online Community Manager | San Francisco, CA **Aug 2017 – Dec 2020**

- Planned and executed office-wide offsite events, team off-sites, and happy-hours, with 80% attendance, resulting in improved morale and communication.
- Advocated for 40,000+ Udacity students, serving as their main point of contact as the Online Community Manager.
- Resolved 200+ student inquiries daily in a timely manner, resulting in higher retention rates of students.

**China Live** | Server | San Francisco, CA **Aug 2017 – Mar 2020**  
**Cockscornb** | Server | San Francisco, CA **May 2015 – June 2017**

## EDUCATION

---

**App Academy** | Full Stack Web Development **Completed 01/2024**

- Immersive software development course with focus on full stack web development
- 1000+ hours of coding in an intense dev environment plus 6 hours of daily pairboarding
- Coordinated teams while learning new technologies quickly and applied them to real projects in a short amount of time and under strict deadlines.
